# About “Pair work”

By Hikaru Fukuzawa,
QA Engineer @ NEXT Co., Ltd.

# About Me

QA Enginner at NEXT CO., Ltd.
5 years after joining the company.

Work for

- automated testing
- accelerated release flow

# Today's topic

## "Pair work"

# Why did you start “pair work”?

# We have a lot of work...

# It was “Pair work”.

"Pair work" is

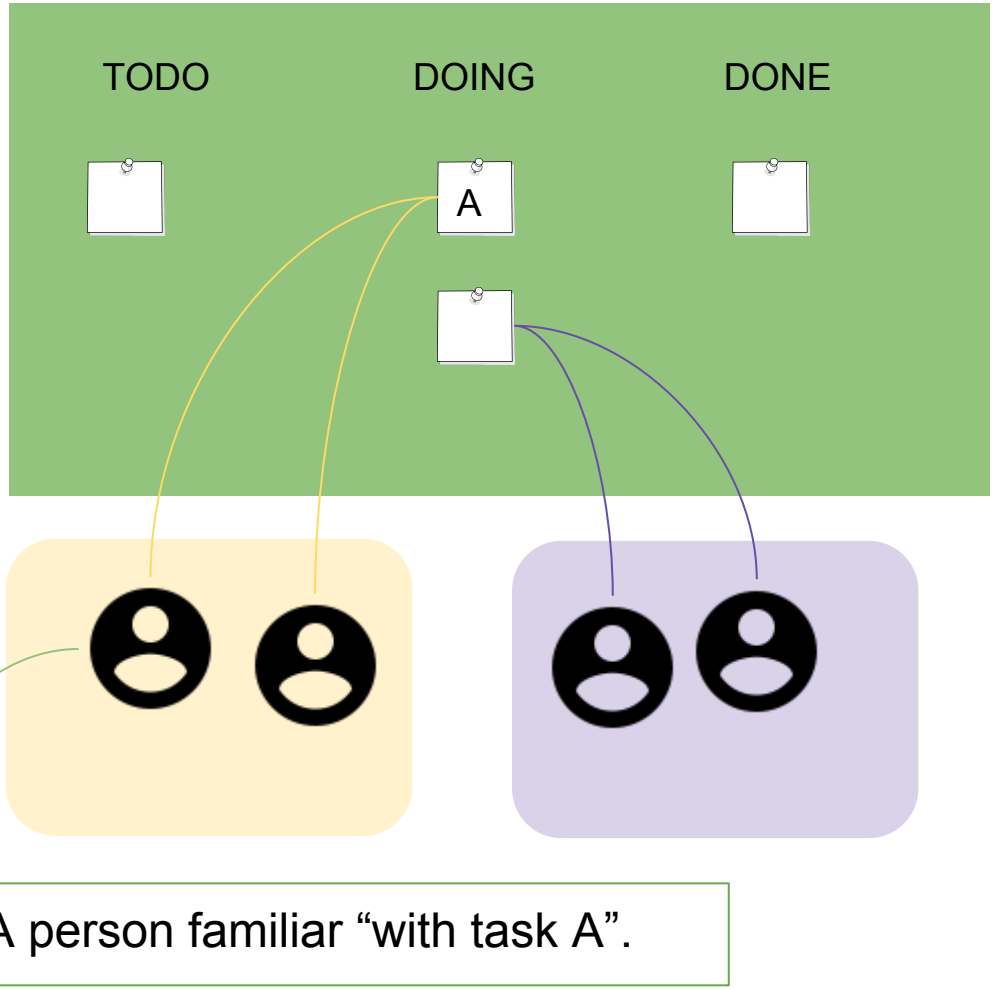
one practice of agile development.

It became a pair of two people, and

have a common task.

# How to assign a task

morning meeting



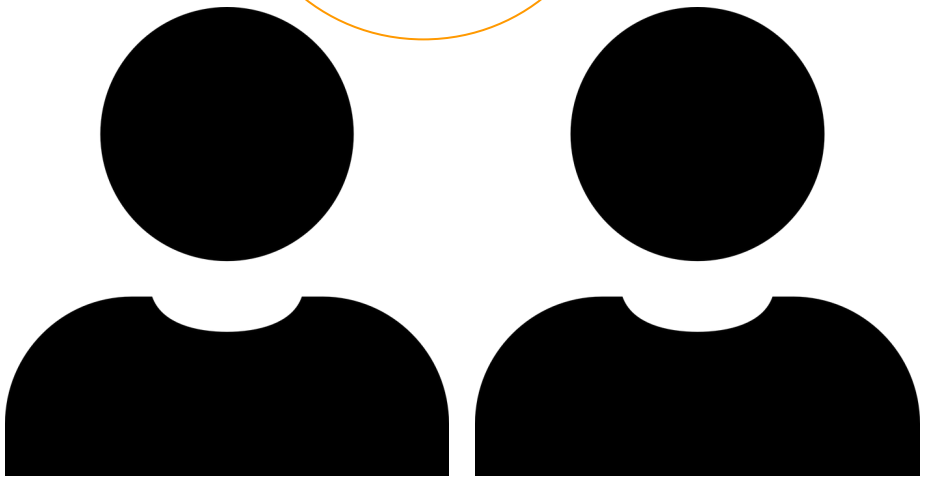
# We retrospect a "Pair work" at KPT.

1 week

KPT

✔ Good Point

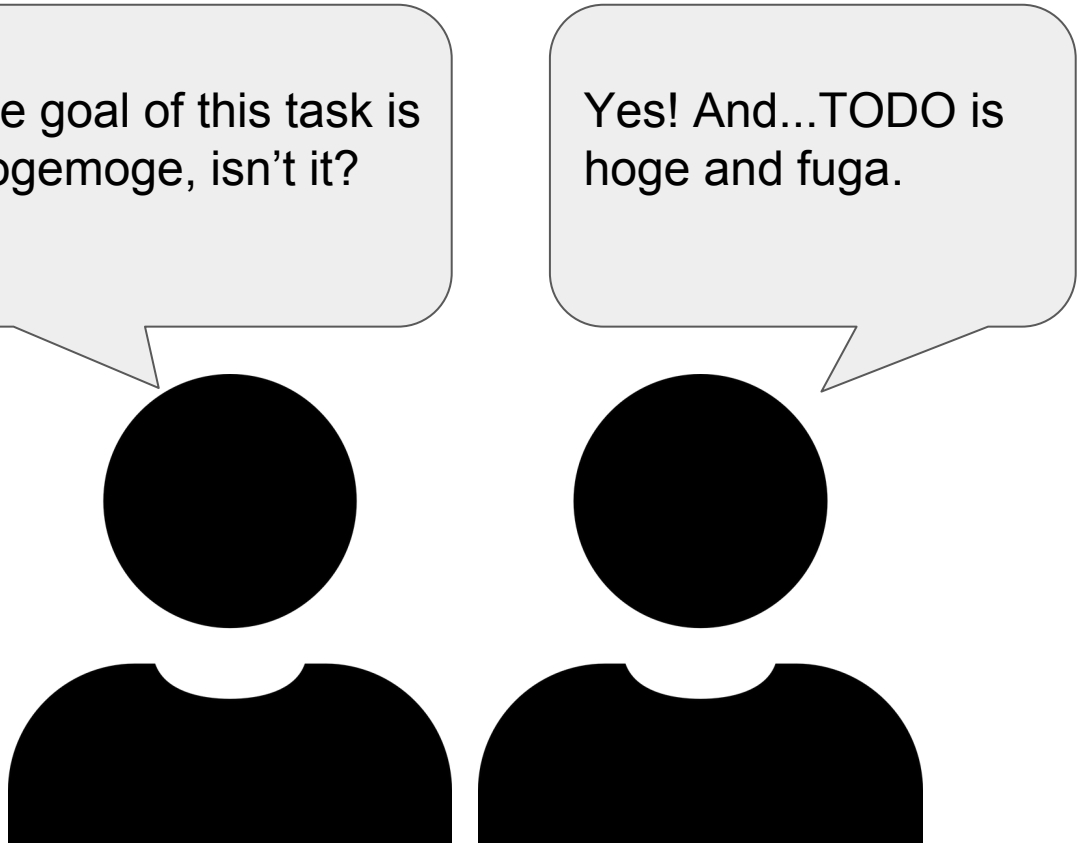
✗ Problem & TRY



# In More Detail

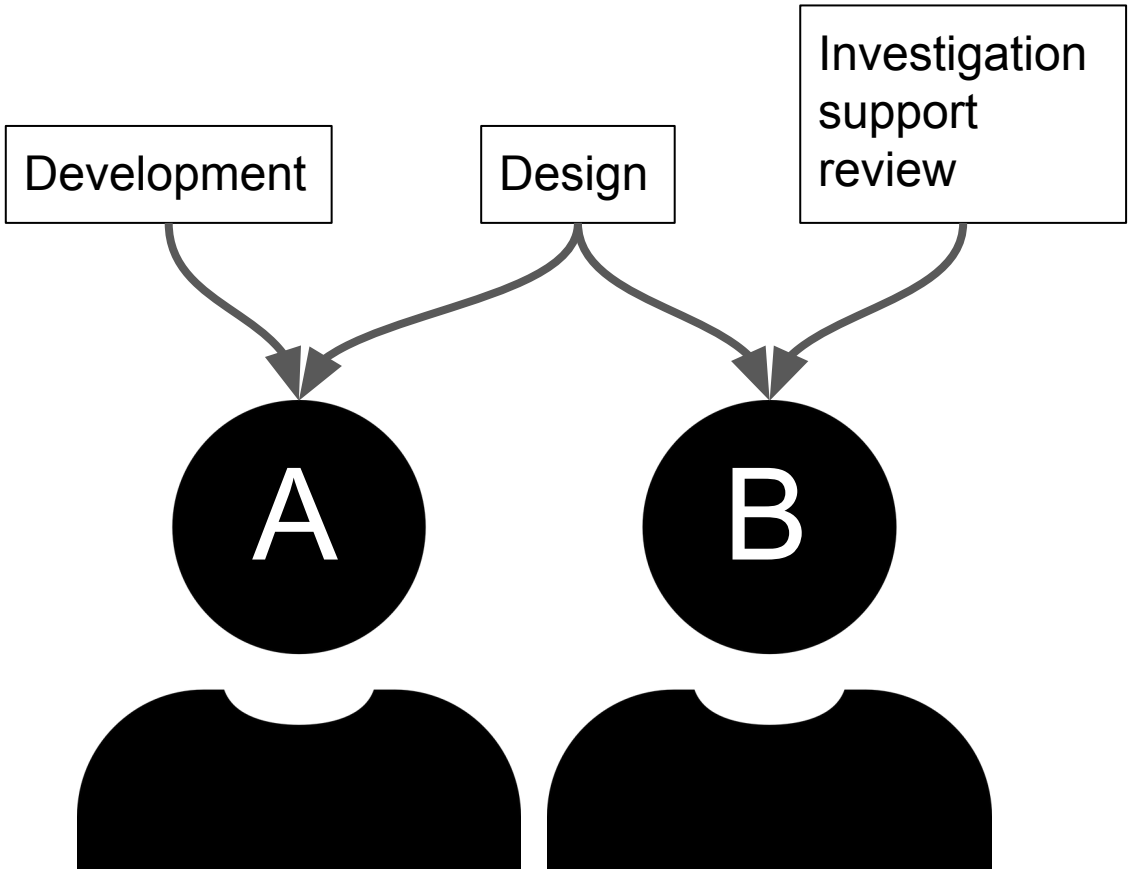
# We check each other about task.

task no.1
---
TODO:
1.hoge
2.fuga
---
Goal is:
mogemoge



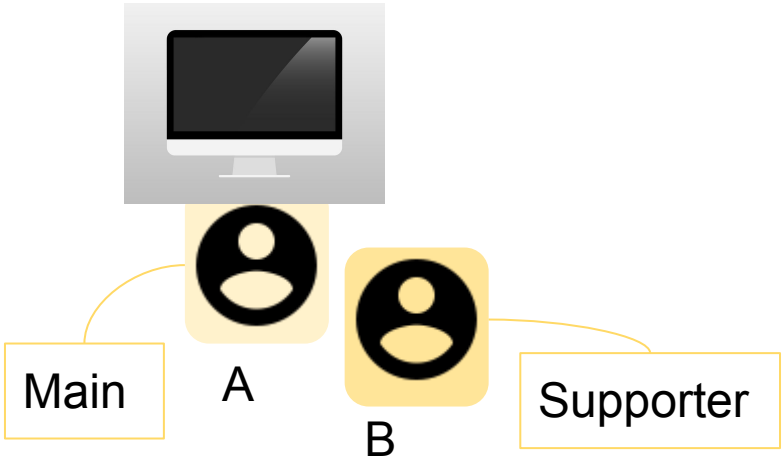
# We decide on roles for task.

| Who | Roles |
|---|---|
| A,B | Design |
| A | Development |
| B | Investigation<br>Support<br>Review |



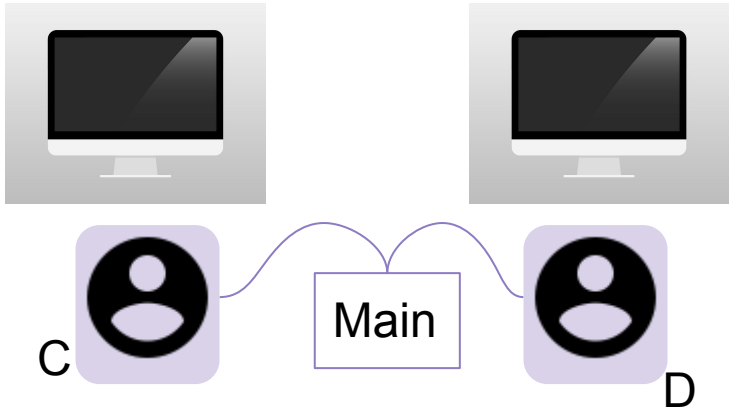
# The pattern of "Pair".

## ① Active ✖ Support



| WHO | SKILL/Knowledge about task |
|---|---|
| A | Great ! |
| B | Not so much |

## ② Active ✖ Active

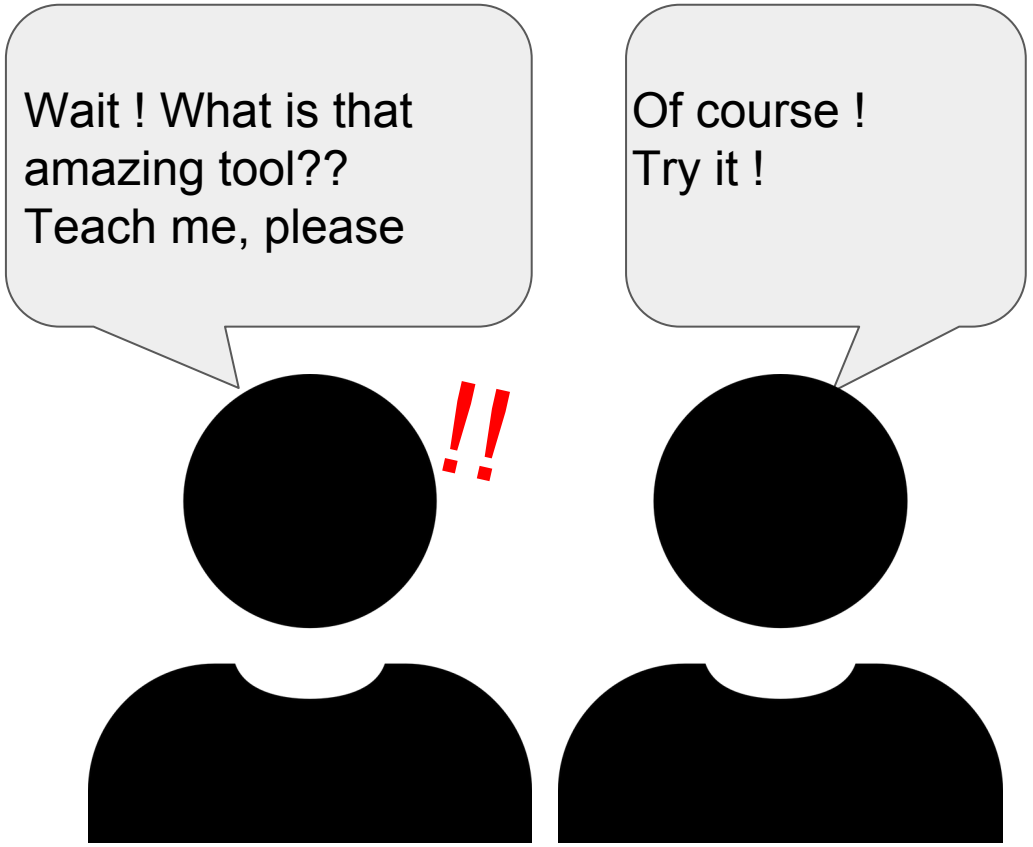


| WHO | SKILL/Knowledge about task |
|---|---|
| C | Greate/Good/SoSo<br>50% or more |
| D | |

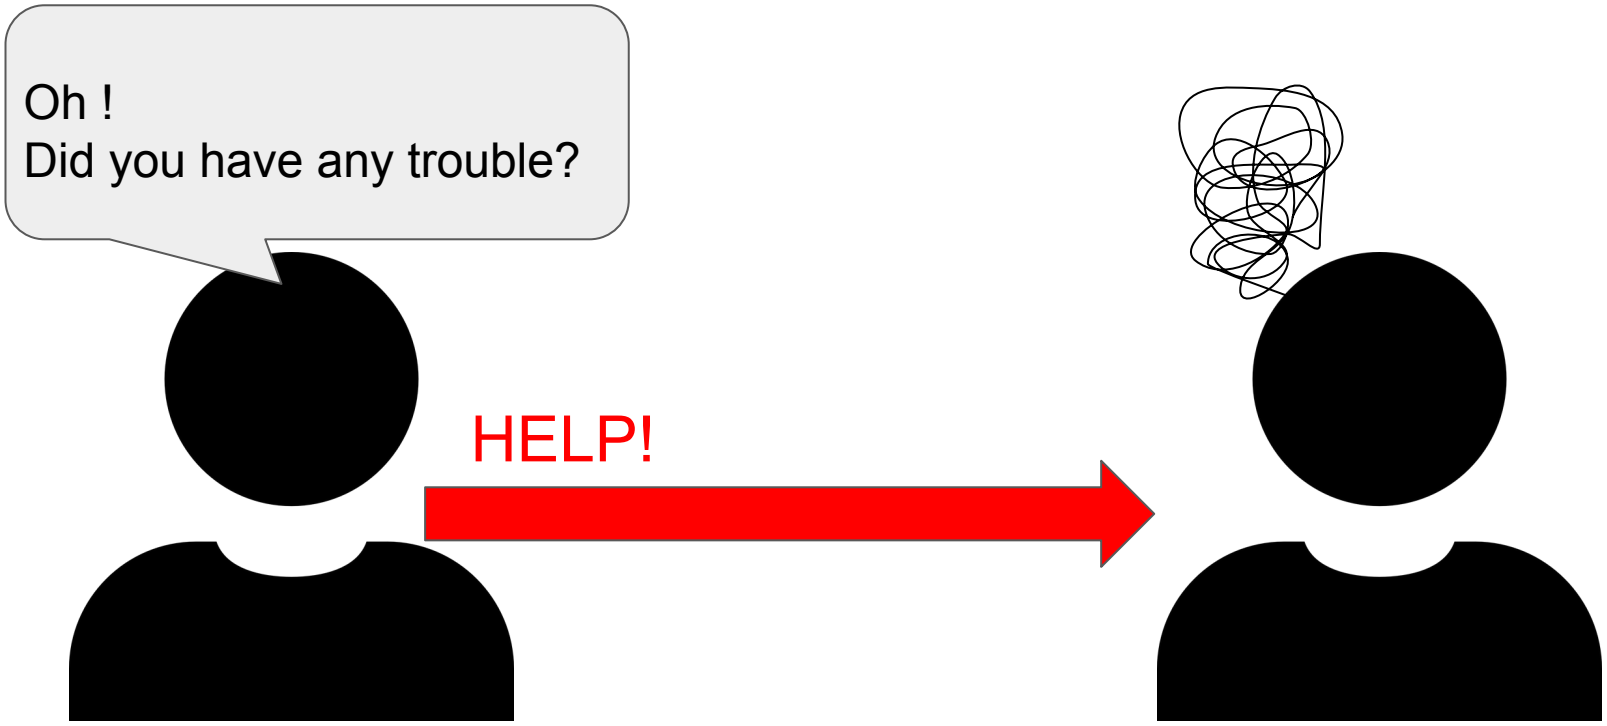
RESULTS

# We share nice tips/tools.

Example tips about ...

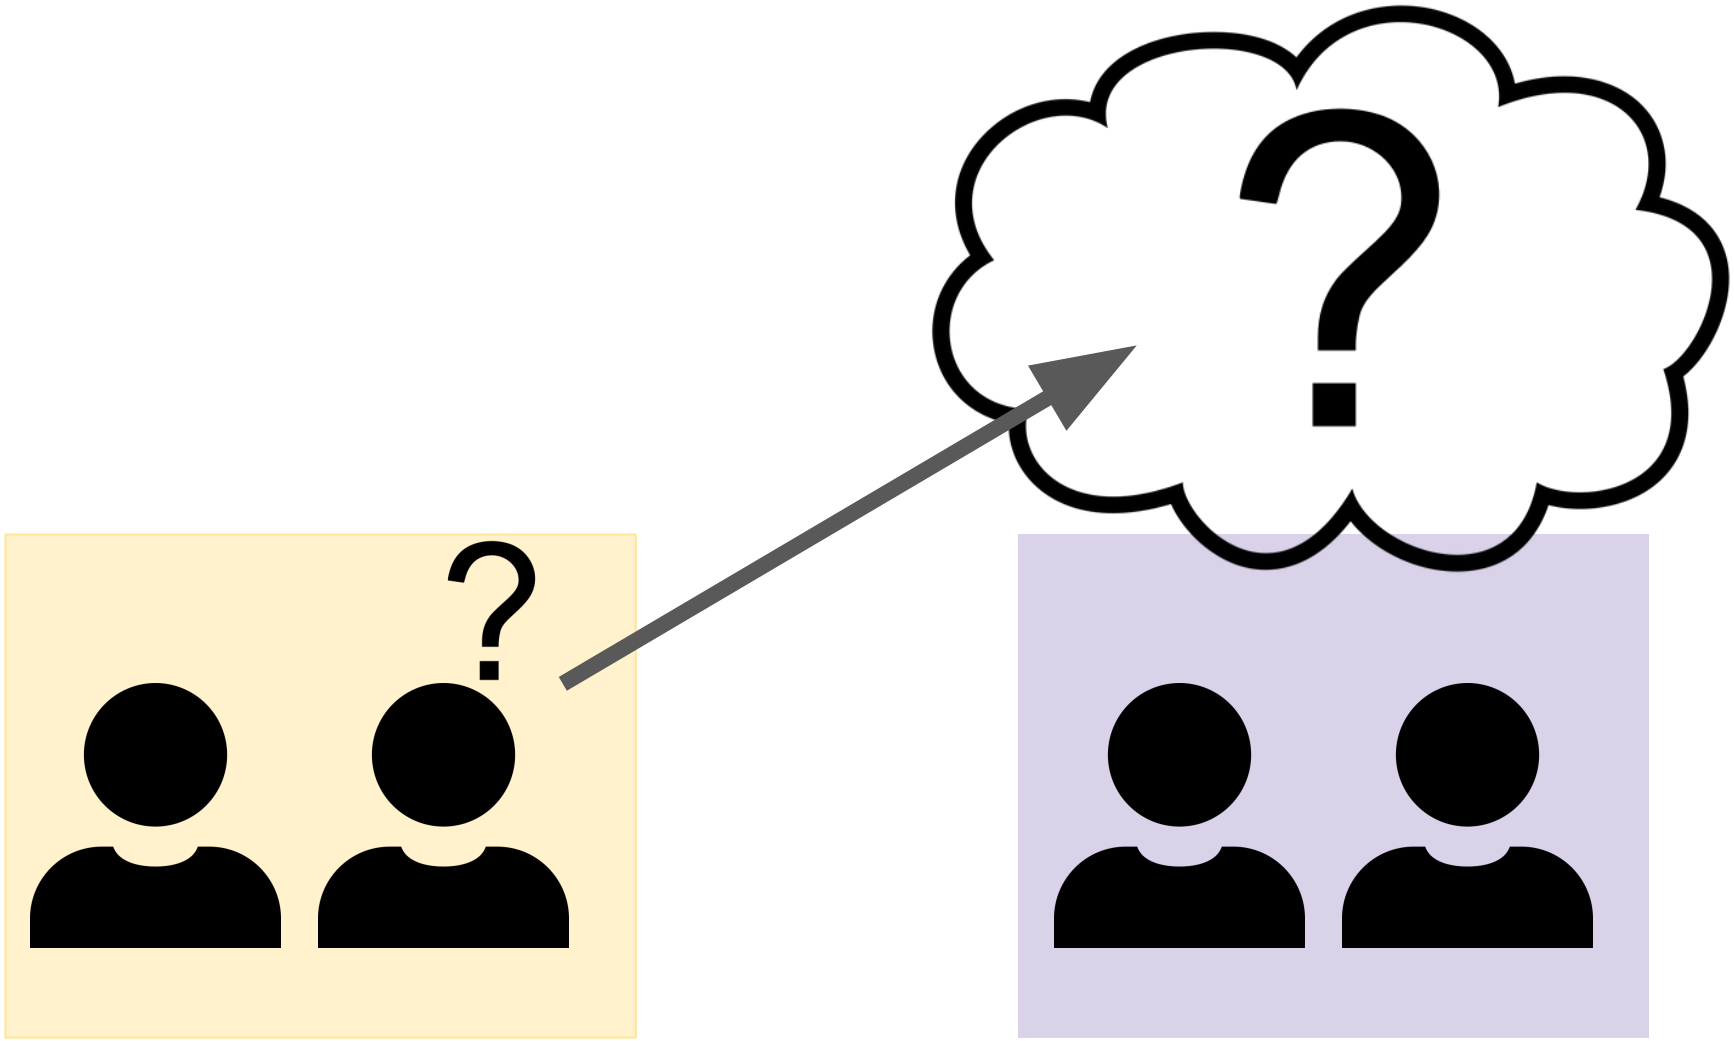


# We can help you soon if you are in trouble.



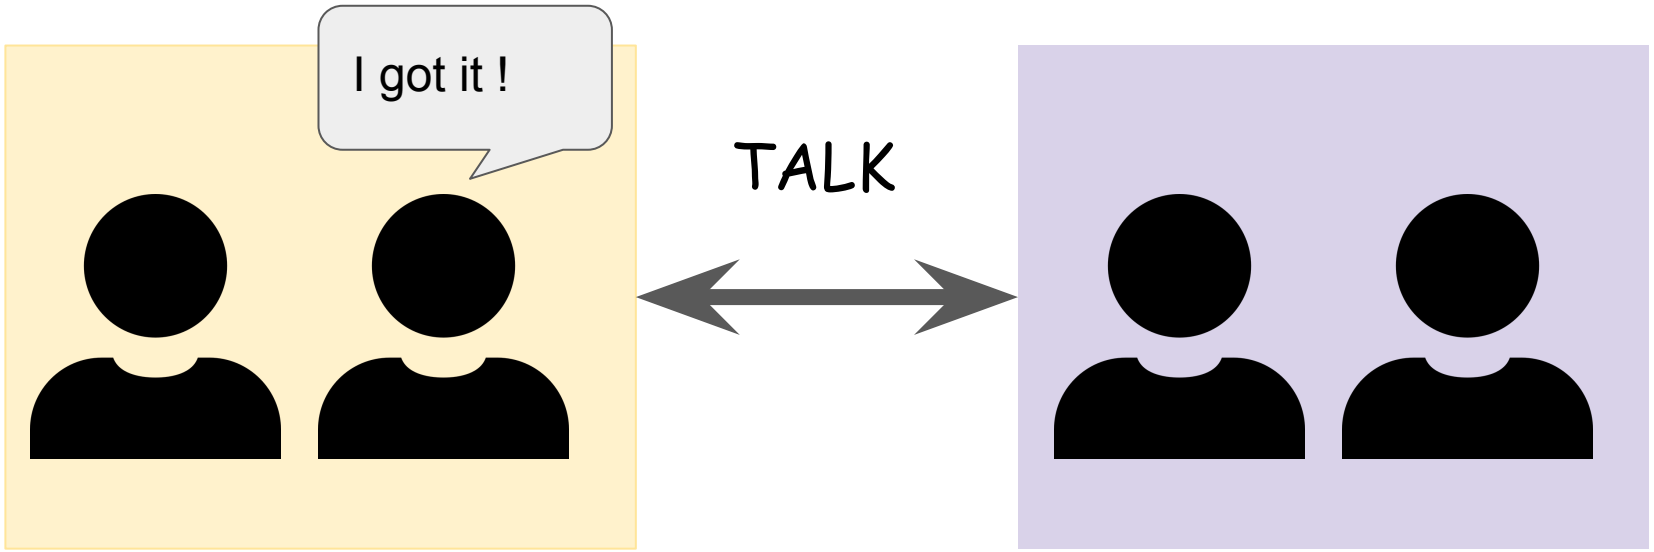
# But, we still have some problems.

The other team's work is sometimes not clear.

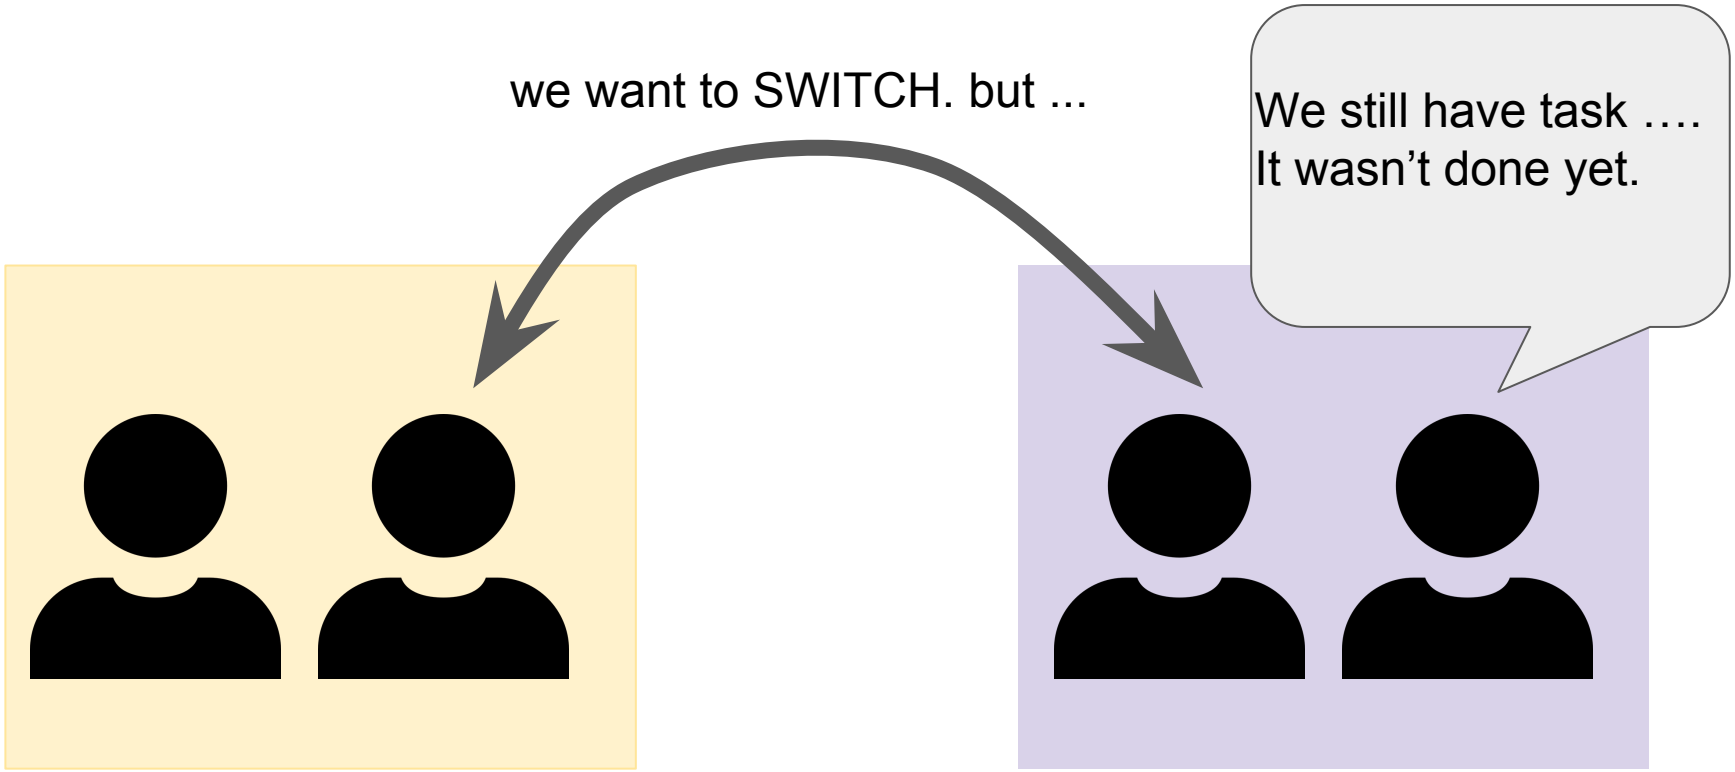


So, We confirm at morning meeting.

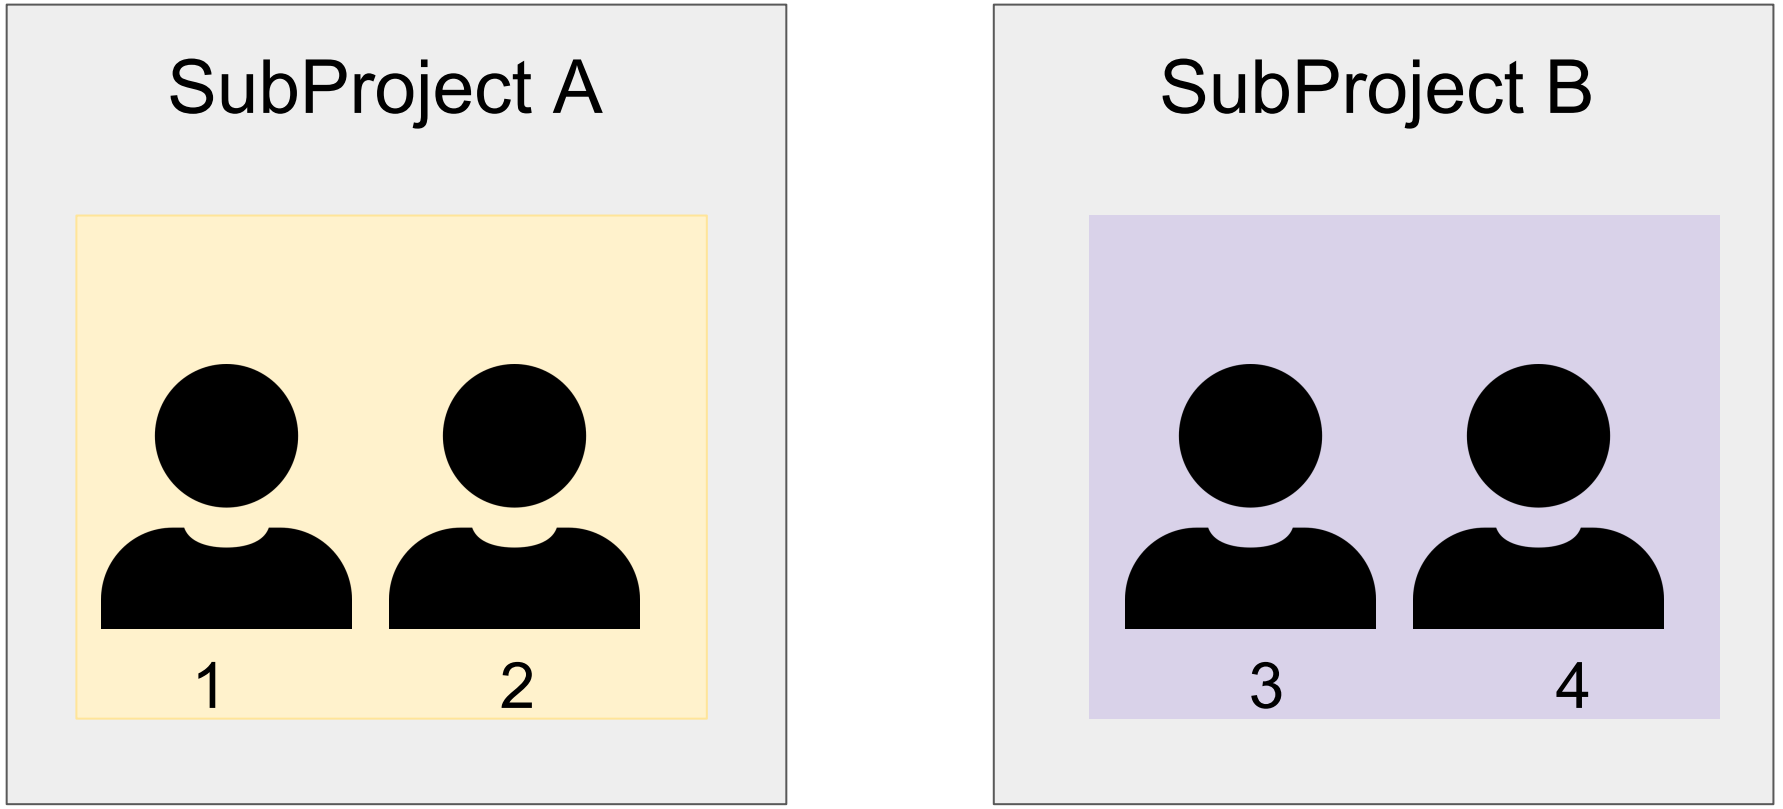
morning
meeting



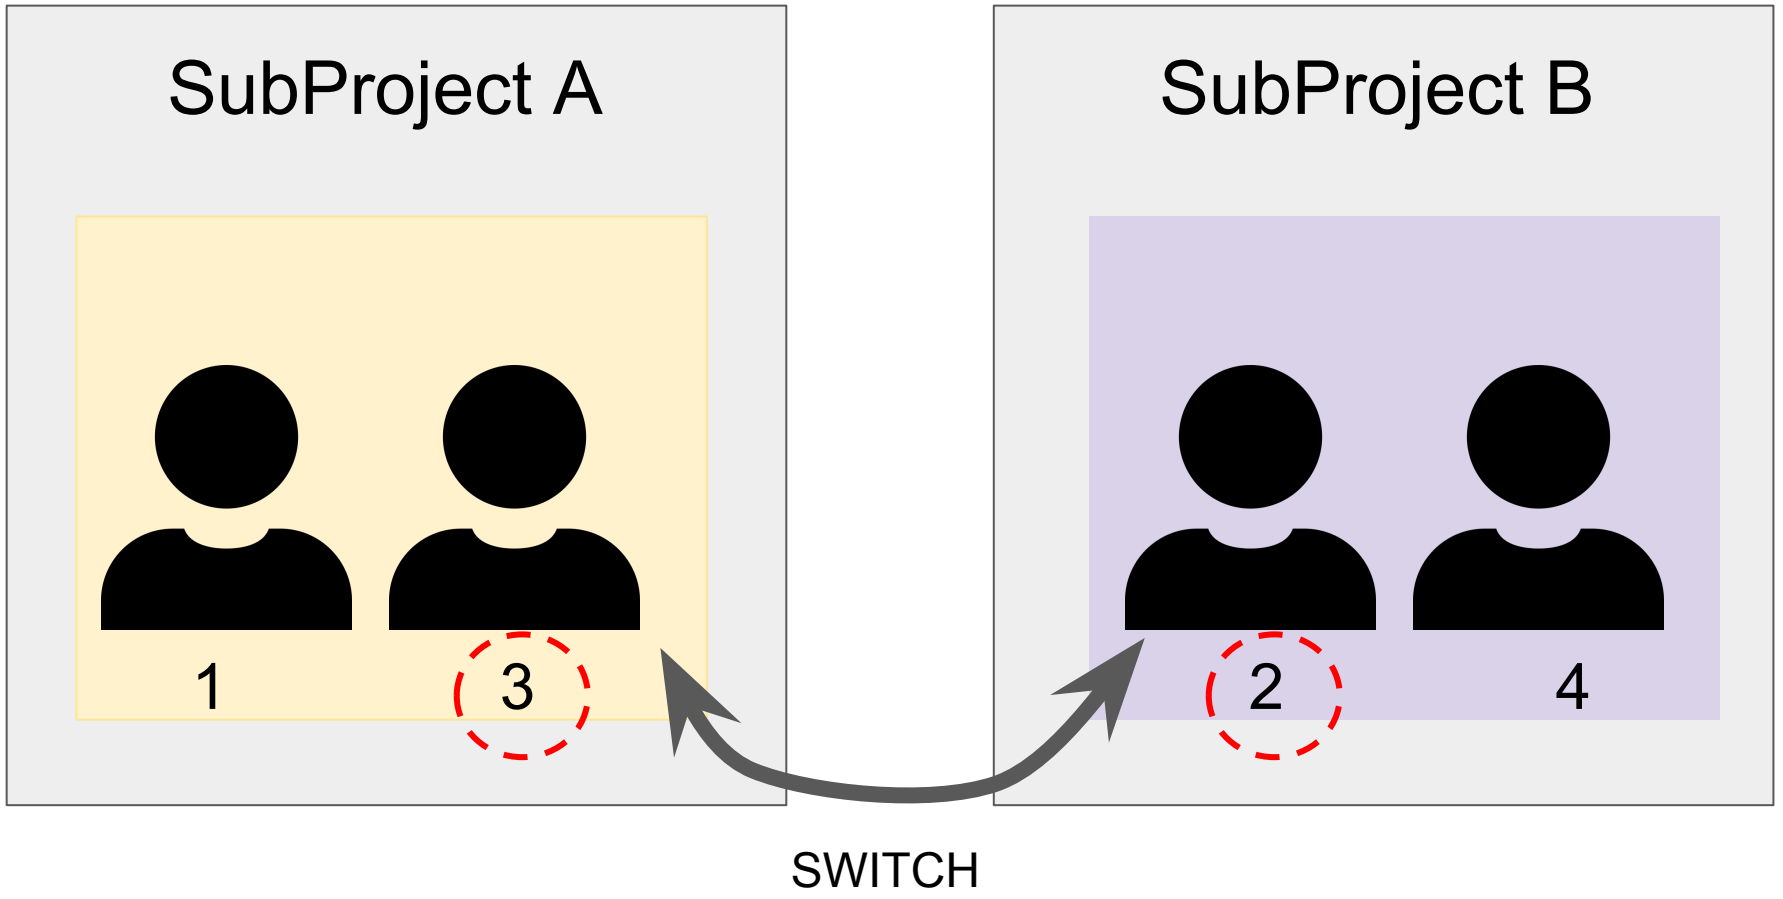
# It is difficult to switch pair.



# Current Project ○○



# **Next** Project xx Start !



# “CONCLUSION”

| Good | | Problem |
| --- | --- | --- |
| Task Efficiency | Share of knowledge/skill | Share nice tips/tools |
| Help each other | Black box of other team's work.<br><br>-><br>we can solve using morning meetings. | Timing difficulty of pair change.<br><br>-><br>we can change pair in next project. |

# “Pair work”

# Thank you for listening.
